

St. Louis Archdiocese 2009 Outpatient Prescription Drug Formulary

This Formulary is effective January 1, 2009. Every effort to ensure its accuracy has been taken; however, information herein is subject to change and is updated periodically. You can view the most up-to-date version at www.mercyhealthplans.com. If you have specific questions about your medications, please contact our Customer Contact Center at the telephone number on the back of your identification card. Representatives are available Monday through Friday from 8:00 a.m. to 5:00 p.m., Central Time.

Mercy Health Plans does not cover new drugs until they have been reviewed by our Formulary Management Committee, after they have been widely available for at least six months.

If you purchase a brand-name drug for which a generic is available, you may be responsible for paying your generic copay, PLUS the difference in cost between the brand and the generic. Drugs for which a generic is available are listed in bold text.

Prior Authorization

The following drugs require prior authorization before Mercy Health Plans will cover them. These drugs are listed with the "PA" notation in the Covered Drug List, starting on page 6. Some drugs require prior authorization only if you are over or under a certain age. Those drugs are listed with the "Age" notation in the Covered Drug List section starting on page 1. Your prescriber must contact Mercy Health Plans to provide clinical information so that coverage may be considered. The prior authorization telephone numbers are on the back of your identification card, and should only be used by physicians.
