

2010 2-Tier Commercial Outpatient Prescription Drug Formulary

This Formulary is effective January 1, 2010. Every effort to ensure its accuracy has been taken; however, information herein is subject to change and is updated periodically. You can view the most up-to-date version at www.mercyhealthplans.com. If you have specific questions about your medications, please contact our Customer Contact Center at the telephone number on the back of your identification card. Representatives are available Monday through Friday from 8:00 a.m. to 5:00 p.m., Central Time.

Mercy Health Plans does not cover new drugs until they have been reviewed by our Formulary Management Committee, after they have been widely available for at least six months.

If you purchase a brand-name drug for which a generic is available, you may be responsible for paying your generic copay, PLUS the difference in cost between the brand and the generic. Drugs for which a generic is available are listed in bold text.
